Job Responsibilities

JOB ID: 670757BR
Date posted: Jul. 30, 2024

Description:Join our Lockheed Martin Aeronautics Field Sustainment Team located at Warner Robins ALC, Georgia as an Airframe Powerplant General (APG) Field Service Representative (FSR) for our C-5 program. This position will advise/assist the customer on all matters pertaining to the daily maintenance, inspection, logistics, and operation of the C-5 aircraft and its installed utility systems. Applicant requires extensive C-5 aircraft experience on C-5 aircraft systems and must possess a good working knowledge of aircraft avionics systems. Experience in troubleshooting, operation, modification and inspection methods relative to the installed systems is essential. Position involves significant interface with customer personnel at all levels; excellent communication skills, both oral and written, are required.

Tasks include but are not limited to the following:

- * Provide on-site/on-equipment engineering assistance and technical advice including investigation, engineering analysis and interpretation of results to customer personnel. Assistance to the customer will be provided on all aspects of equipment operations including installation, maintenance and operation techniques, adjustment, calibration, trouble shooting, bench check, routine maintenance, inspection and intermediate level repair.
- * Provide advice in the identification of and instruction on the use of special tools, handling equipment and test equipment associated with the C-5 aircraft. Provide advice and assistance on the use and interpretation of C-5 technical orders, Engineering Change Proposals (ECPs) and other related technical publications.
- * Provide on-going surveillance of shop maintenance and safety practices; provide technical advice and recommend corrective measures necessary to ensure adequate maintenance and safety procedures are followed to minimize future problems.
- * Assist the customer in troubleshooting of unusual and difficult maintenance issues associated with C-5 aircraft with the Reliability Enhancement and Re-engineering Program (RERP) modifications.
- * Analyze maintenance problems and suggest improvements where indicated. Provide liaison between customer, Original Equipment Manufacturer (OEM) and Depot on related maintenance and operational problems. Provide advice as requested to assist in accident investigation and preparing failure date reports.
- * Serve as a liaison function between the Warner Robins Engineering and Lockheed Martin Aeronautics Engineering teams.
- * Candidate must be willing to travel and accept assignment to any location for which selected.

Applicants selected will be subject to a government security investigation and must meet eligibility requirements for access to classified information. Must be a United States citizen. Must possess at minimum an Interim Secret Security Clearance and be able to obtain a Final Secret Security Clearance.

Basic Qualifications:

The following Basic Qualifications are skills that a candidate must possess to be considered for this position:

- * C-5 airframe, power plant, and utility systems
- System Troubleshooting, Drawing/Schematic Reading
- * At least 4 years experience with Propulsion/APU, ECS; with Reliability Enhancement and Re-engineering Program (RERP) Aircraft Maintenance (Previous Engine Run qualifications preferred)

Desired Skills:

The following Desired Skills are not required but are those skills that would set a candidate apart from other candidates:

- * F-138-GE100 General Electric engine experience
- * Extensive C-5 Experience.
- * Aircraft Engineering experience.
- * Planning and Scheduling activities.
- * Excellent Communication Skills

Security Clearance Statement:This position requires a government security clearance, you must be a US Citizen for consideration.

Clearance Level:Secret

Other Important Information You Should Know

Expression of Interest:By applying to this job, you are expressing interest in this position and could be considered for other career opportunities where similar skills and requirements have been identified as a match. Should this match be identified you may be contacted for this and future openings.

Ability to Work Remotely:Onsite Full-time: The work associated with this position will be performed onsite at a designated Lockheed Martin facility.

Work Schedules:Lockheed Martin supports a variety of alternate work schedules that provide additional flexibility to our employees. Schedules range from standard 40 hours over a five day work week while others may be condensed. These condensed schedules provide employees with additional time away from the office and are in addition to our Paid Time off benefits.

Schedule for this Position:Non- standard 40 hour work week as assigned by leader

Using AI to draft & enhance your resume

✈️ AI to Generate a Resume Outline:

- **AI Resume Builders:** Start with an AI-powered resume builder like ChatGPT, Zety, Resume.io, or Canva. These tools can help you create a basic structure by asking for your job title, experience, and skills. You can also upload the job posting and military performance reports to generate a professionally formatted starting point.

✈️ AI-Powered Suggestions:

- **AI Writing Tools:** ChatGPT, Jasper, or Grammarly
- **Keyword Optimization:** ChatGPT, Jobscan, or ResyMatch
- **Tailoring to Job Descriptions:** ChatGPT and Jobscan
- **Final Review:** Before submitting, use AI tools to conduct a final review.

Resume: Introduction

✈ Purpose: A short paragraph at the top of a resume to provide a concise overview of your professional qualifications, experience, and career objectives.

✈ Goals:

- 1) Capture the recruiter's attention & entice them to skim!
- 2) Set the tone for the resume
- 3) Be strategic, clear, and concise
- 4) Highlight key qualifications
- 5) Align with the job description
- 6) Showcase career goals
- 7) Differentiate yourself

✈ Things to avoid:

- 1) Fluff and irrelevant information
- 2) Create questions with ambiguous or vague statements
- 3) Most acronyms & military jargon (recruiter will not take the time to Google). Only use acronyms that are relevant to the role or LM products!

Resume: Introduction Example

✈ Example: Highly skilled data analyst with over 15 years of invaluable experience in data analytics, a Bachelor of Science in Business Management, seeking a Data Analyst level 3 position at Lockheed Martin Corporation. In the final sentences, you can add one or two more with relevant info, such as... demonstrated expertise in leveraging data-driven insights to inform strategic decision-making and optimize business processes. I look forward to the opportunity to show how my expertise can drive actionable results in a level 3 analysis role. Active Secret Clearance as of January 10, 2023

Resume: Skills Section

✈ Purpose: To showcase your relevant abilities and competencies that directly relate to the job you are applying for

✈ Structure:

- 1) Single word or phrase, typically not in full sentence form
- 2) All skills must be relevant and methodically thought out
- 3) Pull from Basic Qualifications, Desired Skills, and Job Posting
- 4) Another place to list Security Clearance
- 5) All skills listed in the skills section should be addressed in bullet form in the experience section to showcase how your personal experience meets the skill.

Resume: Experience Heading

- **Section Heading:** Label resume section as either “Professional”, “Academic”, “Intern”, or “Co-op” experience
- **Company:** List your company or branch of service. You can optionally add your unit.
- **Position Title:** DO NOT make your position titles ambiguous or vague. Spell out acronyms and initials and only use well-known military jargon. Make your title understandable to everyone without compromising it’s effectiveness
- Search LinkedIn peer titles for industry standard & Lockheed job posting names
- **Start & End Dates:** Add for each position

Professional Experience

Air Force | 35 AMXS Operations Manager
March 2017 – Present

Effective

Professional Experience

U.S. Air Force | F-15 Aircraft Maintenance Sustainment Manager
March 2017 – Present

Resume: Bullet Writing

- ✈ Using the “Action, Impact, Result” framework provides a clear understanding of your contributions and technical skills to hiring teams. Try and find the MOST relevant example to the position you are applying to. Here’s how...
- ✈ **Action:** Give a specific and actionable example of what you did. Describe the task, responsibility, or initiative you took to provide context.
- ✈ **Impact:** Explain the effect or influence of your actions. What changes or improvements did your actions bring about? This part demonstrates the significance of your efforts
- ✈ **Result:** Quantify the outcomes of your actions when possible. Highlight the tangible, measurable results that occurred as a direct consequence of your efforts

Resume: Bullet Writing Example

Vague Bullet Example:

“Enhanced data processing efficiently through optimized workflows, contributing to improved insights and decision-making.”

Correct Bullet Example:

“Revamped data analysis workflow at ABC Aeronautics (Action) by integrating advanced ABC data analysis software, similar to Lockheed Martin Python software, for data preprocessing and predictive analytics. (Impact) This integration led to a 25% increase in data processing speed and a 20% increase in accuracy.” (Result)

Effective Outreach to Recruiters

Dear [Recruiter Name],

I hope you're doing well. I'm reaching out to express my strong interest in the [Job Title] position (Job ID: [Job ID Number]) at Lockheed Martin. My background aligns well with the job description from my time as a [Relevant Experience Position], and I'm excited about the opportunity to contribute to your team. I've attached my tailored resume for your review, along with key excerpts from the job posting below, demonstrating how I fully meet the basic qualifications and many of the desired skills for this role. I would greatly appreciate any assistance in promoting my candidacy to the appropriate representatives. Thank you for your time and consideration. I look forward to the possibility of discussing this opportunity with you.

Basic Qualifications:

- **Experience with Earned Value Management (EVM)**
 - Managed project performance using Deltek Cobra, implementing Earned Value Management (EVM) techniques to track cost and schedule performance, resulting in a 10% improvement in project forecasting accuracy and a 15% reduction in cost overruns through effective Variance at Completion (VAC) analysis.
- **Experience with SAP**
 - Led the implementation and integration of SAPS/4HANA solutions across multiple projects, enhancing program efficiency by 20% and ensuring alignment with organizational goals through effective stakeholder management and resource allocation.
- **Demonstrated experience in Microsoft Office tools including PowerPoint and Excel (i.e. pivot tables, conditional formatting, and creating charts from a data set)**
 - Demonstrated proficiency in Microsoft Office tools, including creating dynamic presentations in PowerPoint and utilizing advanced Excel functions such as pivot tables, conditional formatting, and data visualization through charts.

Desired Skills:

- [List how you meet any desired skills]

Best regards,
[Candidate's Name]
