CompTIA Security+ certified with strong documentation, service support, and equipment maintenance experience.

TECHNICAL SKILLS

Networking: TCP/IP, IP addressing, subnetting, VLANs, trunking, routing and switching fundamentals | **Support:** Troubleshooting, fault isolation, end-user support, documentation | **Infrastructure:** Fiber and copper cabling, cable routing, equipment setup, PMCS | **Secure Communications:** SIPR, COMSEC, SKL, KIV-7M, KG-175/TACLANE

PROFESSIONAL EXPERIENCE

Network Communication Systems Specialist (25H) | Arizona Army National Guard

Jan 2025 - Present

Mesa, AZ

- Serve with 448th Signal Company, TIN-E, supporting cable infrastructure for tactical communications and network systems, including the installation, routing, termination, and maintenance of fiber and copper cabling.
- Install, operate, and maintain tactical communications equipment, cabling, and IP-based network systems used to deliver mission voice and data services.
- Support secure communications by loading COMSEC keying material with an SKL and operating Type 1 encryption devices including KIV-7M and KG-175/TACLANE for SIPR connectivity.
- Apply routing and switching fundamentals on tactical network nodes, including VLANs, trunking, and IP addressing/subnetting, while assisting with network changes and service restoration.
- Use technical manuals, signal-flow diagrams, and BIT/BITE diagnostics to isolate faults, troubleshoot outages, and restore communications availability.

Customer Service Associate | Walgreens

Dec 2023 - Jul 2025

Mesa, AZ

- Delivered customer support in a high-volume retail environment, resolved questions, processed transactions, and maintained a professional customer experience.
- Performed inventory checks, identified stock discrepancies, and escalated issues to support accurate availability and organized back-room operations.

Laborer | Red Hawk Construction

May 2022 - Aug 2024

Mesa, AZ

- Installed water, sewer, and conduit systems while following technical direction, maintaining alignment, and working safely around heavy equipment and active job sites.

EDUCATION & TRAINING

U.S. Army Signal School, Fort Gordon, GA

Oct 2025 - Mar 2026

25H Network Communication Systems Specialist Training

- Completed technical training in network communications, troubleshooting, secure systems, and communications equipment maintenance.

High School Diploma | Red Mountain High School, Mesa, AZ

May 2025
